RFQ

1. How to tell the difference of Human & Synthetic hair?

It's easy to tell the difference via Burning & Smelling.

The synthetic hair will be a plastic ball after burning but the human hair will be ash and gone away.

The synthetic hair will be a chemical smell during burning but the human hair smells like protein.

2. Will the hair get Tangle & Shedding?

Tangle:

The hair material we selected is high quality human hair, cuticles intact and runs the same directions, it will not get tangle.

Shedding:

The hair weave was sewed in double weft and used the high quality South Korean Weft Glue which is STRONG enough to avoid the shedding problem.

3. Can I Dye & Bleach the hair?

Yes. Virgin hair is without any chemical treatment that is like our own hair.

We suggest that you could dye & bleach the hair under the professional guide or via the local hair stylist if you were worried to damage the hair.
