product description

Q1: Which Hairstyle Is Most Popular?

Our survey found that Body wave and straight hair is the most popular hairstyle. Body wave is one kind of loose curl hairs that result in wave pattern. The section of hair is wrapped around a big roller to create a soft and natural-looking wave, that is how body wave be made of. The rollers could be in different size to make different curls. Straight hair reflects the most sheen. It is also the most resilient hair of all of the hair types. It is hard to damage and next to impossible to curl this hair texture. Because the sebum (natural oil produced in the sebaceous glands of the scalp) gently works its way from the scalp to the ends without the interference of curls or kinks, it is the most oily hair texture of all.

Q2: About Shedding

A small amount of hair loss during wearing is normal, it is not a quality problem. Some reasons in details, just like, combing the wig in a rude way after clean it. Or, you just forget to dry the wig before comb it. Sometimes, customers are not willing to spend an extra on a special care for their wigs, however, they need to know applying extremely oily or greasy hair care products to the hair and washing the wig with a not appropriate hot water will cause wig shedding. Your behaviors may bring wig shedding to yourself.
